DE PHILOSOPHIA QVANTALI  
DEQVE INSTITUTIONE PVBLICA

BY STEPHEN A. BERARD

In *De Philosophia Qvantali*, Stephen Berard continues the centuries-old tradition of scientific writing in Latin. A professor of linguistics and languages and life-long promoter of the natural sciences, he interprets the current extraordinary findings of quantum mechanics in such a way that the educated and attentive reader, though not schooled in physics, will definitely be able to follow.

It is often the case today that those coming from Hindu or Buddhist traditions have no problems with such quantum concepts as non-locality, atemporality, parallel realities, and an infinity of universes. Westerners, however, even those schooled in the sciences, are usually not exposed to such concepts in any kind of depth until they are in graduate school. Thus, in the West, students typically form a worldview based on classical, macroscopic, Newtonian-Einsteinian physics, a subclass or special case of quantum physics, rather than on the most basic and universal elements of physical science, which are quantum in nature.

Berard argues against the trend seen in most Western countries to ignore the most fundamental science at the lower levels of education. *De Philosophia Qvantali* elegantly makes the case that a worldview founded on quantum principles is far more holistic, opening large doors to the less linear and even more mystical aspects of life.

### Table of Contents

Præfatio  
Prooemium

#### I. De Experimentorum Eventibus Horumque Interpretationibus Scientialibus Praecipuis

- A. De Experimentorum Eventibus
  - 1. De Repugnantia, Reciprocatione, Ambiguitate Quantalibus
  - 2. De Implicatione Quantali Localitatisque Defectu
  - 3. De Hypersymmetria et Symmetria Temporalis
- B. De Interpretationibus Scientialibus Praecipuis
  - 1. De Interpretationibus Hauniensibus
  - 2. Interpretationibus Multos Mundos Postulantibus
  - 3. De Interpretationibus secundum Vndam Gubernatorium

#### II. De Interpretationibus Philosophicis Praecipuis

- A. De Reductionismo
  - 1. Consideranda Historica Aliquot
  - 2. De Reductionismo Materialistico Scientali Moderno
  - 3. De Mentalismo Moderno
- B. De Holismo

#### Conclusio: Ad Institutionem Publicam Pertinentes Significationes Quantales Aliquot

### Product details

#### Cataracta Publications, 2014

Originally published in paperback (2005) by Melissa, Brussels.

#### Paperback, revised edition

ISBN 978-0-9910049-3-5

150 pages approx.

9 x 6 inches

#### eBook, revised edition

ISBN 978-0-9910049-4-2

150 pages approx.

Language: Latin

Features: 18 images, figures and diagrams

### Subject keywords

Quantum mechanics, Physics, Philosophy, Education

### Contact information
